Important Dates

Pre-proposals due to Maryland Sea Grant

January 27, 2017 at 5 PM

Proposal system shuts down automatically

Pre-proposals under review

February-April 2017

Notification and full proposal guidance available

Mid-April 2017

Important Dates

Full proposals due to Maryland Sea Grant
Mid-June 2017

Proposal selection and notification
September 2017

Projects underway
Feb. 1, 2018 – Jan. 31, 2020

MDSG Mission

- Research, education and outreach program
- Research as a continuum towards widely ‘useful’ results – broader impacts
- Serving Maryland’s many audiences
- Knowledge to inform policy/behavior change

MDSG Research Objectives

- Support science to inform policy decisions
- Connect with audiences beyond academia
- Connect to broader issues
 - resource uses, community needs, economics
- Responsive to the three focus areas of the MDSG request for proposals

MDSG Focus Areas (MDSG FA)

- Healthy Coastal Ecosystems
- Sustainable Fisheries and Aquaculture
- Resilient Communities and Economies

RFP Pages 4-6

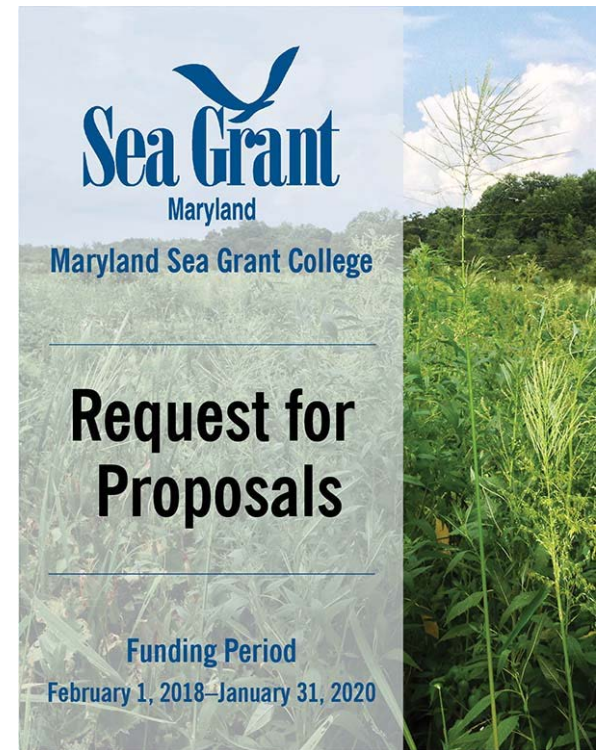

Describe connection between research questions, MDSG FA relevance, outreach

Pre-Proposal: Format

RFP Pages 8-10

- Cover sheet
- 3-page narrative
- References
- 1-page outreach plan
- 2-page CVs

ALL AS ONE PDF

Pre-Proposal: Key Notes

- Follow RFP structure
- Page limit includes tables and graphics
- Budget Estimate
 - ~\$70,000 per year for 2 years
 - What is non-federal match?
- Pre-proposal routing
- What is a “Maryland Sea Grant Research Fellow”?

Pre-Proposal: Outreach Plan

The screenshot shows the Maryland Sea Grant website. The header includes 'Maryland' and 'SCIENCE SERVING MARYLAND'S COASTS'. Navigation tabs include 'ABOUT US', 'RESEARCH', 'EDUCATION', 'COMMUNITIES', 'BAY ISSUES', and 'NEWS/BLOGS'. The main content area features a breadcrumb trail 'Home | Research | Funding', social media icons for Facebook and Twitter, and a large green heading 'Share Your Research'. Below this heading is a paragraph explaining the mission to fund research that meets the needs of Maryland audiences. It states that investigators must develop plans to share findings with constituencies. A section titled 'What Is "Outreach"?' explains that principal investigators must articulate and justify the anticipated benefits of the research. A table titled 'Potential End Users' lists 'Environmental managers'. On the right side, a sidebar titled 'Our Priorities' lists 'Funding' with sub-items: 'Funding Opportunities', 'Program Development Funds', 'Share Your Research', 'Data Management and Sharing', 'Proposal Forms and Worksheets', 'Policies', and 'Guidance for Reviewing Proposals'. Below this, it lists 'For Funded Researchers' with sub-items: 'Current Research Projects — list', 'Search Research Projects', and 'Search Research Publications'.

Share Your Research

An essential component of Maryland Sea Grant's mission is to fund research that meets the needs of the many audiences in Maryland whom we serve.

To that end, we require the investigators we fund to develop plans to share their findings with constituencies whom the research may benefit and in ways that help solve problems and advance public understanding.

Here's a primer about how to do this and what we expect.

All full proposals must include an outreach plan.

What Is "Outreach"?

In their research proposals, principal investigators must articulate and justify the anticipated benefits of the research to be undertaken over short-to-long time scales and to various "end users" of the information or technologies developed.

Potential End Users
Environmental managers

Our Priorities

Funding

- Funding Opportunities
- Program Development Funds
- [Share Your Research](#)
- Data Management and Sharing
- Proposal Forms and Worksheets
- Policies
- Guidance for Reviewing Proposals

For Funded Researchers

- [Current Research Projects — list](#)
- [Search Research Projects](#)
- [Search Research Publications](#)

www.mdsg.umd.edu/share-your-research

Pre-Proposal Peer Review

- External written reviews
- Outreach panel review
- Technical panel review

Criteria

Scientific and technical feasibility, relevance to MDSG and state, potential impact, outreach plans

Pre-Proposal Submission Site

The screenshot shows the Maryland Sea Grant website's pre-proposal submission page. The header includes the Sea Grant Maryland logo, navigation links (HOME, BOOKSTORE, VIDEOS, TOPICS A-Z, DONATE), a search bar, and social media icons. A secondary navigation bar lists categories: ABOUT US, RESEARCH, EDUCATION, COMMUNITIES, BAY ISSUES, and NEWS/BLOGS. The main content area features a breadcrumb trail, a title for the Request for Proposals (RFP) for 2018-2020, and a submission form with fields for PI information and a PDF upload section.
